

# **Letter of Support for Future Forward Community School**

To Whom It May Concern,

My name is Keith A. Elie, and I am writing to express my wholehearted support for the establishment of Future Forward Community School in Beaumont.

As a parent and community leader who is deeply invested in the well-being of our youth, I believe Future Forward represents an important opportunity to strengthen educational outcomes for students and provide families with additional pathways to success. Every child learns differently, and our community benefits when families have access to educational environments designed to meet a variety of academic, social, and emotional needs.

Today, schools are being asked to do more than ever before. Educators work tirelessly to help students achieve academically while also addressing challenges related to mental health, workforce readiness, character development, and family engagement. Future Forward Community School has the potential to be an innovative partner in meeting these needs by creating a student-centered environment that prepares young people not only for graduation, but for life.

I believe our community needs educational options that emphasize individualized learning, strong relationships, and real-world preparation. Students thrive when they feel seen, supported, and challenged to reach their full potential. Families also benefit when they have the ability to choose a school that best aligns with their child's learning style, goals, and needs.

Additionally, I believe Future Forward can be a valuable asset to the broader educational landscape in Beaumont. Strong schools do not compete against one another; they contribute to a stronger community. By introducing new ideas, innovative approaches, and meaningful partnerships, Future Forward can help inspire continued growth and excellence throughout our local education system.

Most importantly, this effort represents an investment in the future of our children. When we create more opportunities for students to succeed, we strengthen families, develop future leaders, and build a healthier community for generations to come.

For these reasons, I strongly support Future Forward Community School and believe it would be a positive and much-needed addition to Beaumont. I encourage community leaders, parents, and stakeholders to support this initiative and the opportunities it will provide for local students and families.

Sincerely,

Keith A. Elie
